Competition University's Ordering & Enrolling

Ordering Instructions

- 1) A teacher must be identified on the order form or purchase order as a point of contact.
- 2) Order confirmation will be sent to the identified teacher as the point of contact via email from cu@customresources.com. (please have this email address white-listed for important details)
- 3) Enrollments are per school year. No pro-rating is available.
- 4) Prep Track and Class Track orders are per school. Separate schools may not combine numbers and order together. This is a matter of privacy, etc.
- 5) What is CU-SE? This item is a convenience item for a large group and multiple teachers. It allows for separate enrollments for each advisor/teacher, giving each one the opportunity to enroll his/her students separately and then see only his/her students in the CU gradebook as opposed to seeing all the students enrolled from his/her school.

DECA & FBLA Savings

- 1) DECA and FBLA Chapters at the same school may combine numbers of students who will use CU for the best value when ordering. For example, if 25 DECA competitors and 25 FBLA competitors will use CU's Prep Track Courses, PT-50 may be ordered. If combining DECA and FBLA, the number of students who will use each Prep Track must be noted on the order form in the far left column or noted on the purchase order. ie: 25 DECA / 25 FBLA.
- 2) *CU is able to accommodate individually enrolling students if a school is unable to purchase chapter enrollment. Individuals set up and account and pay for enrollment directly online at CU.*

Enrollment Details

- 1) Teachers who purchase early will be given access to CU in late July.
- 2) Student enrollments will begin in mid to late August.
- 3) Teachers who order early will receive CU's Enrollment file close to open enrollment. During the school year, upon order confirmation, the CU Enrollment file is emailed immediately and teachers may submit their students to be enrolled at their convenience.
- 4) CU's enrollment process involves the teacher completing the CU Enrollment Spreadsheet, ideally using MS Excel. (*Office.com offers free basic use of Excel.*)
- 5) During the enrollment process, **teachers will be asked to select Prep Track, Class Track, or Both**. Teachers should not select "Both" unless enrollment for both the Prep Track and Class Track have been purchased.
